Tungal School, Jamkhandi		

PROJECTS

Nike Website Design Project: [**Live Link**]
- Crafted a visually engaging and user-centric interface in Figma, emphasizing bold typography and high-quality imagery to align with Nike's branding.
- Enhanced user experience through intuitive navigation and interactive prototypes, ensuring seamless product exploration and engagement.

Logitech Website Design Project: [**Live Link**]
- Designed a sleek and modern website for Logitech using Figma, incorporating interactive prototypes to showcase functionality.
- Focused on enhancing the user experience with intuitive navigation and visually appealing design elements.

EchoWave Pro Marketing Poster Project: [**Live Link**]
- Designed an eye-catching marketing poster using Canva, emphasizing the product's sleek design and key features to attract customers.
- Enhanced engagement with bold visuals and a clear call-to-action.

Gaming Controller Marketing Poster: [**Live Link**]
- Designed a visually appealing poster in Figma, highlighting the product's features and price.
- Focused on creating an engaging user interface with a creative and user-centric approach.

These projects demonstrate my ability to deliver creative, user-centric designs and impactful solutions, making me a strong candidate for any design-focused role.
